MAXIMIZE YOUR PRESCRIPTION **DRUG BENEFITS**

- Use a preferred pharmacy. Many plans have preferred pharmacies that offer lower copayments and coinsurance.
- If available, choose generic drugs. Generic drugs are usually more affordable and just as effective as brand-name drugs.
- Order 90 or 100-day supplies. Some plans offer lower costs for longer supplies, which can save you time and money.

Use mail order delivery. Some plans offer lower costs for mail order prescriptions.

Check your plan's formulary. Your plan's formulary lists coverage drugs and their tiers. Lower-tier drugs are usually less expensive.

Involve your caregiver and agent. If you have a caregiver, include them in discussions about your plan and drug assistance programs. If you need help looking at your plan's formulary, please give us a call!
